As a Webmaster and WordPress developer, I have really loved the opportunity to create, improve and grow websites over the past five years. I have also really enjoyed learning all I can about CSS, JavaScript, and React in that time. Now I am highly motivated and excited to progress in frontend position that embraces these technologies and more, where I can grow and contribute effectively to a team.

EXPERIENCE

Webmaster

Remali Marketing

Tel Aviv & Freelance

2017 - Present

I design, develop, and maintain WordPress websites, utilizing custom post types, custom fields, and blocks to build scalable websites optimized for SEO and user experience. With WordPress plugins I extended the functionality of these sites to display live information from APIs.

Helpdesk Advisor

Zonal Retail Data Systems

Edinburgh

2015 - 2016

I administered incoming calls, analysed issues, and followed through with solutions. Coordinated tasks with an in-house team and on-the-road engineers.

Technical Support

Rushmore Marketing

Tel Aviv

2013 - 2014

Assisted a large customer base via phone, email and live chat with a diverse array of technical issues.
